BLITZ G2

SLIDE-AND-SNAP™ AR TRIGGER

The Blitz G2 makes high performance easy: it breaks clean, resets fast, and installs in under a minute with no tools. And it outperforms triggers that cost $100 more.

KEY FEATURES

CRISP BREAK, FAST RESET – Movement starts right at the sear with NoWay Take-Up™, and the short Quik-Klik™ reset is one you feel and hear, so your groups tighten and your follow-ups are faster.

INSTALLS IN UNDER A MINUTE – The Slide-and-Snap™ install locks into a lower with built-in anti-walk, anti-rotation pins, with no tools and no setscrews.

BUILT TOUGH – Heavy-Hit™ hardened S7 tool steel and a 6061 aluminum housing machined from a solid block, not stamped from sheet steel.

PICK YOUR FEEL – It comes with your choice of blade face: flat, inspired by the RA-434 HPT blade, or curved, inspired by the Blitz G1 blade.

SWAP IN ANY RISE BLADE FACE – Compatible with RISE Interchangeable Blade Faces, held firmly in place by TorLok™ technology and swapped in seconds with no tools.

MSRP: $209.99

WHY YOU'LL LOVE IT

TIGHTER GROUPS AND FASTER FOLLOW-UPS
