ABOUT

When access to important weather details, news updates and lighting is crucial, the 12 Survivors Emergency Hand Crank Radio/Flashlight can be a vital tool. This reliable device features a high-output flashlight with a low and high setting for bright illumination in dark environments, and a loud FM radio for access to essential broadcasts. Equipped with a sturdy hand-crank dynamo and an input cable for fully charging the device in a timely manner, this lightweight, non-slip grip instrument acts as a low-maintenance platform for several emergency needs.
