### ABOUT

The 12 Survivors SolarFlare 11 delivers 10.6 watts of power in a lightweight, ultra-compact 10.1-in. x 13-in. tablet. SolarFlare 11's monocrystalline cell material absorbs sunlight, creating your own self-reliant 2.1-Amp dual USB power source. Hanging hooks and corner grommets make securing the panel quick and easy; hang it on your tent or tie it to a rock in seconds! Weighing in at just over 11 oz., the ultra-thin foldable design makes charging and preparing your devices both portable and versatile.
