### ABOUT

The 12 Survivors SolarFlare 16 packs a whopping 15.9 watts of power in a lightweight, ultra-compact 10.1 x 13 inch tablet. SolarFlare 16's monocrystalline cell material absorbs sunlight, creating your own self-reliant 2.1 amp dual USB power source. Hanging hooks and corner grommets make securing the panel quick and easy; hang it on your tent or tie it to a rock in seconds! Weighing in just shy of 1 lb., the ultra-thin, foldable design makes charging and preparing your devices both portable and versatile.
