

BALLISTIPAX

ARMOR PLATE SIZES 10X12, 11X14

MADE IN THE USA

FULLY TESTED BY INDEPENDENT LAB

LEVEL III+ PE / POLYETHYLENE (UHMWPE)

- A stand alone armor plate with multi-strike capability
- Single curve, rectangular or shooter's cut
- Laminated Ultra High Molecular Weight Polyethylene (UHMWPE) hard plate
- Positive Buoyancy
- Covering: 600D nylon with edge padding
- Complies with Ballistic Resistance of Body Armor NIJ Standard-0101.06
- Rated for up to six strikes from 7.62 x 51/.308 at 2780 ft/s at 15 meters
- 5-year lifespan

LEVEL III STEEL PLATE

- Stand alone armor plate with multi-strike capability
- Single curve, rectangular or shooter's cut
- Manufactured from certified AR-500 steel core with a Brinell Hardness Rating of 505-518 BHN.
- Curved plate is formed on a custom CNC laser—not plasma—cutting table.
- Plate is bent on a custom laser cut die set with single radius bend on a custom built, computer controlled, hydraulic press guaranteeing a perfectly formed plate
- Plate core is chemically washed and etched on the strike surface to eliminate the coating from delaminating when shot (thereby keeping shrapnel from escaping from the armored assembly)
- Fully encapsulated base coated with super strong hybrid polyurea for the protection of the steel against corrosion, chemicals, and sweat
- Complies with Ballistic Resistance of Body Armor NIJ Standard-0101.06
- Rated for up to six strikes from 7.62 x 51/.308 at 2780 ft/s at 15 meters
- 20-year lifespan

LEVEL IIIA HARD / POLYETHYLENE (UHMWPE)

- A stand alone hard armor plate with multi-strike capability
- Single curve, rectangular or shooter's cut
- Laminated Ultra High Molecular Weight Polyethylene (UHMWPE) hard plate
- 600D cover with padded edges
- Thickness: 7/16"
- Complies with Ballistic Resistance of Body Armor NIJ Standard-0101.06
- Rated for up to six strikes from up to .44 magnum @ 1474 ft/s @ 17.3 ft.
- 5-year lifespan

LEVEL IIIA SOFT

- A stand alone soft armor plate with multi-strike capability
- Rectangular or shooter's cut
- Manufactured with Teijin UD Aramid enclosed utilizing modern, ultrasonic, nylon welder achieving a waterproof covering
- Thickness: 7/16"
- Complies with Ballistic Resistance of Body Armor NIJ Standard-0101.06
- Rated for up to six strikes from up to .44 magnum @ 1474 ft/s @ 17.3 ft.
- 5-year lifespan

Please Note: Once sold, the armor plates are NOT returnable (except as specified for damage during shipping per our return policy).
