Sleeve	34	35	36	37	38	39

There are several different sizing and fit dimensions for Browning hunting clothing and two distinct fits for Browning Men's hunting clothing. To achieve the right fit, be sure to determine which fit classification the item has before finding the correct sizing for you in the charts below.

BROWNING SIZING CHART

1 SLEEVE

Starting from the center of the back of the neck, measure along the shoulder and down the elbow to the wrist bone.

2 CHEST

Measure under the armpits, around the widest part of the chest and shoulder blades.

3 WAIST

Measure around the waist where pants are normally worn. The tape should be a little loose, enough to get one finger between the tape and the body.

4 INSEAM

While standing, measure from the crotch to the point pants normally end. This should be approximately at the top of the shoe and just above the heel in the back.

5 NECK

Place the measuring tape around the neck at the height where the collar would normally rest. Stand relaxed. Hold one finger under the tape measure to ensure some room for comfort then measure the circumference.
