NFA DEFCAN[®] SUPPRESSORS

ADVANCED SOUND AND FLASH REDUCTION

Constructed from advanced materials using the latest manufacturing methods, DEFCAN suppressors are available for many of the most popular rifle and pistol calibers. Optimized design reduces flash signature and offers phenomenal sound reduction.

REDUCED BACKPRESSURE SYSTEM (RBS)

Modern RBS design for pistol caliber suppressors vents more gas forward while decreasing backpressure in the operating system. The benefit? Less gas is directed towards an operator while decreasing the amount of suppressor specific firearm/gas system tuning.

MULTIPLE MOUNTING OPTIONS

Included with each DEFCAN is its compatible QD muzzle device with mount options including 9mm or .45 ACP tri-lug adapters, and our 5.56 or .30 cal ZEROED SVD Muzzle Brake (A2 flash hider profile).

FEATURES

(FEATURES VARY DEPENDING ON MODEL)

- HIGH TEMP CERAKOTE FINISH
- QUICK DETACH (QD) MUZZLE DEVICE & SHIMS INCLUDED
- MULTIPLE THREAD OPTIONS
1/2-28, 5/8-24, 0.578-28
- INDUSTRY STANDARD 1 3/8-24 THREADED BODY ALLOWS FOR POPULAR HUB MOUNT OPTION COMPATIBILITY

We aim to please, that's why every CMMG product is backed by our Lifetime Quality Guarantee against material and workmanship defects.
