

Instructions

DOUBLE TAP_{inc}

Rimfire Dueling Tree : Ground Base

1. Assemble the Tree Sections :

- Align the three sections of the dueling tree as shown in **FIG 1**.
- Insert the bolts through the holes and tighten the nuts securely.

2. Assemble the Base :

- Attach the legs to the base plate as shown in **FIG 2**.
- Insert the bolts and snug the nuts, but do not fully tighten yet.
- Flip the base upright, level the legs, and then fully tighten the hardware.
- Note:** The base plate has approx. 5° of adjustment to allow a safe downward target angle on uneven terrain.

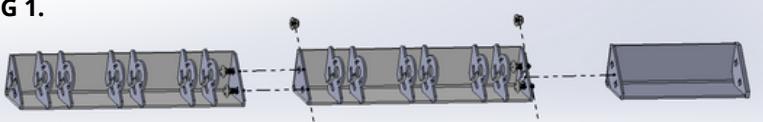

3. Attach the Upright Assembly :

- Mount the assembled dueling tree upright onto the base.
- The base offers two mounting positions:
 - 10° forward tilt **FIG 3**.
 - 90° upright **FIG 4**.
- Choose the position that provides the safest shooting angle for your setup.
- Use the remaining bolts and nuts to secure the upright assembly to the base. **FIG 5**.

4. Install the Paddles :

- Starting at the bottom, angle each paddle slightly and slide it into place.

Rimfire Dueling Tree : T-Post Mount

1. Assemble the Tree Sections:

- Align the two sections of the dueling tree, using the sides with the two bolt holes (not the sides with the T-post-shaped slots). See **FIG 1**.
- Insert the bolts through the holes and tighten the nuts securely.

2. Mount to T-Post:

- Slide the assembled dueling tree onto the T-post, utilizing the T-post-shaped slots on the back of the tree. See **FIG 2**.

3. Install Paddles:

- Starting at the bottom, angle each paddle slightly and slide it into place.
- Work your way up, installing one paddle at a time. **FIG 3**.
