

FSM WITH BOSS

FSM-S WITH BOSS

FSM-PB WITH BOSS

FSM-AR WITH BOSS

INSTRUCTIONS

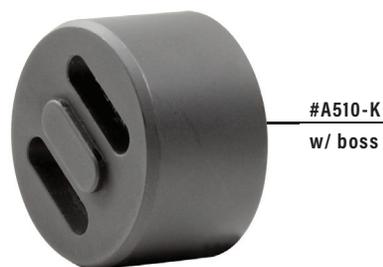

FOR FSM, FSM-S, FSM-PB, FSM-AR

MAKE SURE YOUR FIREARM IS UNLOADED AND POINTED IN SAFE DIRECTION WHEN INSTALLING THIS PART.

- 1** Align the arm of the folding mechanism with the receiver block at desired height.
- 2** Using the supplied socket head screws (#10-32 × 1/2") tighten the folding mechanism into position.
- 3** Once the folding mechanism is installed, thread sling swivel into the arm of the folding mechanism (optional).
- 4** Mount desired buttstock to the body of the folding mechanism using the hardware provided with the stock. When installing AR-15 style stocks with an FSM, FSM-S or FSM-PB, a CAR15 Stock Adapter (part #A510K) is required. The FSM-AR does not require a stock adapter.

CAR15 STOCK ADAPTER (PIGNOSE)

Not Included

NOTE: All folding mechanisms are available with and without a boss. The boss version is intended to be used when mounting to an Ace receiver block or folding mechanism. When mounting directly to a firearm, the standard version (no boss) should be used. Scan the QR code to see more information about the two versions.
