## PRODUCT INFORMATION GUIDE FASTRAX PAC

galcousa.com  
2019 West Quail Avenue Phoenix Arizona 85027

## SAFETY SYMBOL DEFINITIONS

### ⚠ DANGER

Indicates a hazardous situation which, if not avoided, will result in death or serious injury.

### ⚠ WARNING

Indicates a hazardous situation which, if not avoided, could result in death or serious injury.

### ⚠ CAUTION

Indicates a hazardous situation which, if not avoided, could result in minor or moderate injury.

### NOTICE

Used to address practices unrelated to potential personal injury.

Visit GalcoUSA.com/videos to view related safety and product use videos.

## IMPORTANT SAFETY WARNINGS AND INSTRUCTIONS READ PRIOR TO USING GALCO PRODUCTS

### ⚠ DANGER

**Firearms users must understand and obey the Rules of Firearms Safety:**

1. All firearms are always loaded.
2. Never let the muzzle cover anything you're not willing to destroy.
3. Keep your finger off the trigger until your sights are on target.
4. Be sure of your target and what's beyond.

**⚠ WARNING** Failure to heed these warnings or follow the operating instructions may result in negligent discharge of a firearm, causing serious injury or death.

Read and understand all owner's manuals, instructions, and guides prepared by the manufacturer of your firearm prior to use.

Galco holsters are designed to carry specific firearms.

**⚠ WARNING** Before use, be sure the holster selected is designed and intended to carry your particular firearm.

If you have any questions about correct fit, contact Galco Customer Service at 800-874-2526 or customerservice@galcogunleather.com. You may also visit galcousa.com and use our online "shop by gun" feature.

**⚠ WARNING** Carrying a firearm in an ill-fitting or improper holster can result in serious injury or death. The purchase and use of a Galco holster is at the sole and exclusive risk of the user.

## READ AND UNDERSTAND THIS ENTIRE GUIDE PRIOR TO USING THIS PRODUCT

Firearms are inherently dangerous. Improper or careless use of a firearm or firearm and holster may result in serious injury or death. It is the user's responsibility to possess a thorough knowledge of, and be properly trained in, all aspects of firearm use, including holster use and safety.

**⚠ WARNING** Do not place a loaded firearm in a holster without first testing – with a firearm double-checked and verified to be unloaded – for a proper firearm fit.

**⚠ CAUTION** Tension units are not pre-set at the factory. If a holster has tension units, it is the user's responsibility to ensure they are adjusted to retain the firearm.

Carry the firearm in the safe condition recommended by its manufacturer. This information will be contained in the product information manual provided by the firearm manufacturer. If you do not have the manual applicable to the firearm, contact the firearm's manufacturer.

Always ensure the firearm is fully seated in the holster, and that it activates all automatic or manual retention devices (when provided). Retention devices must be used when provided.

**⚠ WARNING** If the firearm is not properly secured by means of friction or the retention device(s), it could become dislodged, causing injury and possibly death to the user and others.

**⚠ WARNING** Never holster a firearm in the single-action mode, unless it is a semi-automatic pistol and holster designed and intended for "cocked and locked" or "Condition One" carry.

**⚠ WARNING** Always ensure that a single-action pistol carried in "Condition One" has the manual safety engaged when carrying in a holster.

**⚠ WARNING** Do not attempt to cock a holstered firearm as this may damage the firearm, the holster, or both, and may contribute to a negligent discharge.

**⚠ WARNING** Always protect an exposed magazine release from accidental activation.

**⚠ WARNING** When drawing a firearm from the holster, DO NOT place your finger on the trigger, in the trigger guard, or near the trigger. Position your finger along the frame of the firearm, above the trigger guard. Keep your finger off the trigger until your sights are on target.

**⚠ WARNING** A significant number of negligent discharges - some resulting in injury or death - occur while holstering a firearm. Most are caused by the user's index finger pressing the trigger. Some are caused because a foreign object becomes entangled or trapped in the trigger guard/holster and presses the trigger. The safest practice is to "look the firearm into the holster." This should be done methodically and without rushing. While holstering, be fully cognizant that:

1. All safeties are engaged.
2. Your index finger is straight along the firearm's frame. DO NOT place your finger on the trigger, in the trigger guard, or near the trigger. Keep your finger off the trigger until your sights are on target.

3. No articles of clothing (shirt tails, jacket drawstrings, etc.) become trapped in the trigger guard, holster, or between the firearm and holster.

4. Your shooting-hand thumb is placed over the hammer or the rear of the slide. This will enable you to feel if the hammer starts to move rearward or the slide begins to come out of battery.

5. You strictly observe Rule of Firearms Safety #2: never let the muzzle cover anything you're not willing to destroy. If you do not know how to holster your firearm without breaking this rule, you should seek training before holstering your firearm while the holster is worn.

6. If for any reason you are unable to "look the firearm into the holster" and not muzzle yourself or others, you should remove the holster from your body, then "look the firearm into the holster" (without breaking Rule #2). After the firearm is securely seated in the holster, attach the holster to your body/clothing in the manner in which it was designed.

7. If you holster your firearm while the holster is off and in your hand, insure you do NOT point the firearm at your support hand. Do not place your support hand (or other body parts) at the bottom of the holster. The holster material is not bullet proof. Neither your support hand, other body parts, nor other people should be muzzled/flagged while holstering.

**⚠ WARNING** A firearm (whether in or out of a holster) may discharge if it falls to the ground or onto another object, causing death or serious injury. Holsters are not designed or intended to prevent firearms from discharging when dropped.

Always place your hand on the firearm and holster when running or performing other physically vigorous activities.

It is the user's responsibility to maintain the holster by regularly checking component parts for excessive wear and proper function. This includes, but is not limited to, tension units, snap closures and retention devices.

Checking tension units each time the holster is used is required as part of your regular safety inspection. Applying a small amount of clear nail polish to the threads of the tension units, after proper adjustment, will help minimize screw loosening.

**⚠ WARNING** Do not use customized, modified, worn or broken firearms, or those otherwise outside the original manufacturer's specifications, in a Galco holster.

Do not in any way modify, disassemble, or remove any part from this holster, except as approved and recommended in Galco's Product Information Guide.

Do not rely on any holster being "snatch proof" regardless of the number of retention devices it may feature. Rely only on proper training and situational awareness.

## CARRY CONDITION OF THE FIREARM

**⚠ WARNING** Some single-action revolvers and some semi-automatic pistols must be carried with the hammer or firing pin resting on an empty chamber.

Carrying any firearm with a live cartridge in the chamber immediately in front of the firing pin may cause a negligent discharge. Holsters are NOT designed to prevent firearms discharge if dropped. Information regarding the safe carry condition of your firearm will be contained in the product information manual provided by the firearm's manufacturer. If you are unsure of the safe carry condition(s) of your firearm, contact the firearm's manufacturer

**⚠ WARNING** Galco holsters which have a retention strap with reinforced thumb break intended for single-action pistols (such as the 1911) are designed for "hammer down, empty chamber" carry, unless otherwise specified. Galco holsters lacking a retention strap with reinforced thumb break ("open top") are designed to carry single-action pistols in all safe conditions of carry as specified by the firearm manufacturer.

## IF ANY DOUBT EXISTS AS TO THE SERVICEABILITY OR SAFETY OF A GALCO PRODUCT, IMMEDIATELY CEASE USING IT

If you have questions, contact:  
Galco Customer Service at 800-874-2526  
or customerservice@galcogunleather.com.

Galco has made every effort to properly label all holsters for the specific firearms they fit. However, firearms manufacturers often make changes to their firearms that affect holster fit.

Galco will not be responsible for such changes, nor for typographical or other human errors that may occur. It is the user's responsibility to ensure proper holster fit with actual firearms.

It is important to understand that all products, including firearms and holsters, may eventually "wear out" or become unsuitable for the function for which they were designed. Stress and strain placed on a product will vary according to frequency and conditions of use, and therefore it is difficult to indicate a recommended replacement date for this product.

## INSPECTIONS / MAINTENANCE, ADDITIONAL USER RESPONSIBILITIES

**NOTICE** It is the user's responsibility to ensure that the item remains serviceable and safe, and able to continue service within its design intent.

**⚠ WARNING** It is the user's responsibility to inspect the holster before and after each use for signs of excessive wear or loss of retention capability, and appropriate tightness of all hardware.

## PRODUCT IDENTIFICATION

Galco products are generally identified with a two-part code stamped into the holster body or label affixed to the item.

An alphabetical or alphanumeric prefix identifies the holster model. For example, the FLETCH model's prefix is FL while the Royal Guard's prefix is RG.

The numerical suffix identifies the particular firearm the holster is intended to fit. For example, the 212 suffix indicates a 5" 1911 while the 224 suffix indicates a Glock 17. The letter "B" or "H" at the end of the code indicates color. B is for black, H for havana brown, while no letter generally indicates tan.

Thus, an FL212 (FL + 212 + no letter) will be a tan FLETCH to fit a 5" 1911, while an RG224B (RG + 224 + B) will be a black Royal Guard for a Glock 17.

Holsters intended for Galco's modular shoulder systems display letters and numbers that correspond to guns. A Miami Classic holster intended for a SIG P320, for example, will simply read 820. A VHS 3.0 holster intended for a Beretta 92FS will read V3-202.

The numerical suffix of holsters intended for right-hand or ambidextrous use will end in an even number. The suffix of holsters intended for left-hand use will end in an odd number.

You may use the "shop by gun" feature found at our website, galcousa.com, to locate a holster fit. Simply enter the model number on the item (FL224B, for example) in the field. Should you have questions regarding the identification of the firearm intended for your Galco product, you may also contact Galco's customer service department at 800-874-2526 (during business hours) or by email at customerservice@galcogunleather.com.

**⚠ WARNING** Some Galco holsters are approved for use with multiple firearms. Care must always be taken to ensure your holster is an appropriate and approved fit for your firearm. Never carry a firearm in any holster not specifically recommended by Galco for that firearm.

THANK YOU FOR YOUR PURCHASE OF  
A GALCO PRODUCT! WE APPRECIATE  
YOUR BUSINESS.

Galco’s FasTrax PAC™ is designed to blend with modern casual clothing styles while discreetly carrying a compact defensive handgun ready for quick action. The FasTrax PAC is available in two sizes, with the “S” suffix denoting units for subcompact autos and small-frame revolvers, and the “C” suffix indicating units for handguns up to compact autos. This hidden open carry holster allows you to conceal a handgun in plain sight - with style! The innovative pivoting holster component works in concert with an activation cord to create a simple, fast draw method that eliminates the need to dig inside the body of the pack to retrieve the handgun. The firearm may be accessed in a traditional manner as well.

The stretchable elasticized waist strap combines with Galco’s Comfort Cloth™ backing for the utmost ease, even in hot weather. The user-adjustable holster component can be configured for dozens of different popular handguns. The FasTrax PAC tops the list for convenient, comfortable concealed carry in an increasingly casually-dressed world.

⚠️ WARNING

Keep your finger off the trigger until your sights are on the target!!

⚠️ WARNING

Do not place a loaded firearm in a holster without first testing with a firearm double-checked and verified to be unloaded for proper firearm fit.

CARE, MAINTENANCE AND STORAGE  
DO

NOTICE

Clean synthetic materials as needed by hand using a soft bristle brush. If additional cleaning is needed, wash by hand with a mild soap and water, allow to air dry naturally.

NOTICE

Dirt and grit trapped in your holster may harm your firearm’s finish. To clean your holster, especially after use in dusty conditions, simply wipe out the interior of the holster using a clean, damp cloth.

DON’T

NOTICE

Do not store your firearm in a holster if the holster is damp from perspiration or in otherwise moist condition.

Do not put Galco synthetic material products in the washing machine.

Do not submerge or saturate your leather product in water or any other liquid or dry your leather product with heat from a dryer, oven, radiator, direct sunlight, etc.

Do not use products such as Neats Foot or Mink oil, as they will damage the leather. Additionally, do not use Galco Leather Lotion or other leather conditioners on synthetic material or Premium Center Cut Steerhide.

Do not leave your Galco product on the dashboard of your car in summer, or leave it otherwise exposed to the elements.

NOTICE

The above care and maintenance instructions cannot substitute for your good common sense. Following our recommended care and maintenance tips, along with common sense, will allow you to get the maximum service life from your Galco products.

HOLSTER ADJUSTMENT FOR  
YOUR FIREARM

⚠️ WARNING

UNLOAD YOUR FIREARM (chamber, magazine, cylinder) before testing holster fit.

The holster component can be adjusted to fit a wide variety of compact and subcompact defensive handguns. Use the numbered and lettered holes corresponding to the list below to select an appropriate fit for your firearm. See illustration 1.

The holster component need not be removed to adjust gun fit, but if you wish to remove it please refer to the information at illustration 10.

⚠️ CAUTION Ensure that the adjustable adjustable welt is sandwiched between the walls of the holster, secured by both screws, and positioned to cradle the trigger guard. A convex welt will impede the holster fit.

“S” MODEL FITS SUBCOMPACT  
PISTOLS AND SMALL REVOLVERS  
PRODUCT CODES FTPEBS, FTPGBS, FTPMBS

Diamondback DB380/DB9, Colt Mustang, Keltec P3AT, Kimber Micro 9, Remington RM380, Ruger LCP I/II, SIG-Sauer P938, Walther PPK and similar

3” 1911, Bersa BP9, Glock 42/43/43X/48, Kahr 45, Kimber Solo, Ruger LC9, SIG-Sauer P365/P365 XL and similar

Glock 26/27/33, Honor Defense Honor Guard, S&W J-Frame, S&W Shield 9/40/45, Ruger Security-9 Compact and similar

Charter Arms Bulldog / Undercover, Colt Cobra/Detective Special, Ruger LCR/SP101, S&W J-Frame Scandium, Taurus 85/605 and similar

“C” MODEL FITS COMPACT PISTOLS  
PRODUCT CODES FTPEBC, FTPGBC, FTPMBC  
Note: “C” models also fit all firearms listed for “S” models, using the same “S” holster settings.

SIG-Sauer P230/P232 and similar.

3.5” - 4” 1911, Bersa Thunder .380, Kahr K9/40 and similar.

Glock 19/23/29/30, SIG-Sauer P229/P239, HK P2000SK/VP9SK, Hi-Point C9, S&W M&P Compact, Springfield XD-S 3.3”, Taurus P111/PT140/PT145/G2C/G2S/Millennium Pro, Walther PPS and similar.

SIG-Sauer P320C/P320SC and similar.

⚠️ WARNING

Care must always be taken to ensure your holster is an appropriate and approved fit for your firearm and adjusted according to the above guidelines. Never carry a firearm in any holster not specifically recommended by Galco for that firearm. For a complete list of gun fits, visit [galcousa.com](http://galcousa.com)

DRAWING FROM FASTRAX PAC

⚠️ WARNING In order to avoid muzzling body parts DO NOT wear the Fastrax PAC centered on your abdomen. When wearing the FasTrax PAC ensure that it is off the centerline of the body, either to the left or the right.

1 Simultaneously grasp the activation cord with your support hand and the top zipper pull with your primary hand. See illustration 2.

2 Completely unzip the holster compartment. See illustration 3.

3 Pull the activation cord **up and towards the centerline** (solar plexus area) of your body. This will rotate the holster almost 90 degrees, with the butt of the firearm coming out of the firearm compartment. See illustration 4.

⚠️ WARNING

Do not pull the activation cord to the front or the side, as this can cause the muzzle to cross the support hand during the draw. The smoothest, safest draw method is to pull the activation cord up and towards the centerline of the body.

4 Grasp the butt of the firearm in a firing grip while keeping your trigger finger straight.

5 Pull the firearm up and out of the holster, while simultaneously releasing the activation cord from the support hand. Allow the activation cord to fall away from the support hand. Your support hand should remain in position on your chest. See illustration 5.

6 Once the firearm is pointed towards the target and before extending your arms, grip the firearm with both hands using a proper shooting grip as taught by an accredited firearms safety and training course.

⚠️ WARNING

The trigger should not be touched and your finger should not enter the trigger guard until your sights are on the target.

HOLSTERING

1 Return your support hand to the center of your chest while visually confirming that the holster is unobstructed and in the vertical position. See illustration 6.

2 With your finger well clear of the trigger and along the firearm’s frame, gently ease the firearm into the holster. See illustration 7.

⚠️ WARNING While easing the firearm into the holster, ensure that you do not allow the muzzle to cross your support arm, hand or leg.

3 Once the firearm is holstered, use your support hand to grasp the tab at the top of the holster component. Simultaneously push down on the gun and pull up on the tab, fully seating the firearm within the holster component. See illustration 8.

4 Pivot the firearm and holster component so it is completely enclosed in the holster compartment. See illustration 9.

5 Ensure that the unused zipper pull is tucked into the holster compartment while the active zipper pull is left free to grasp. See illustration 14. (PRO TIP!)

LEFT HAND CONVERSION

The FasTrax PAC comes configured for right hand use. To convert to left hand use, remove and reverse the holster by shifting the holster component until the post of the fastener is within the hole of the keyhole slot. Release the harness fasteners one at a time. See illustration 10.

Untie the knot at the end of the activation cord and pass the cord through the indicated holes in the order shown. Tie a secure knot at the end of the activation cord. See illustration 11.

When converting from right hand to left hand operation, ensure that the holster fastener spacers are moved to the opposing holster fasteners. The spacers help ensure that the firearm does not hang up during the draw. See illustrations 12 & 13.

⚠️ WARNING

After removing the holster component for any reason, ensure that the holster component fasteners are seated securely within the key hole/slots on the holster component. Reattach each fastener one at a time by inserting the fastener through the hole of the keyhole/slot.

PRO TIP!

There are two zipper pulls on the firearm compartment, one for right hand and one for left hand use. During use, ensure that the unused zipper pull is tucked into the holster compartment while the active zipper pull remains free to grasp. See illustration 14.

The exterior accessory pocket features a convenient pass-through port for headphone or other cables.

FASTRAX PAC WAIST STRAP EXTENDER

The optional Waist Strap Extender accessory adds 6” - 24” to strap length and attaches with additional Nexus buckles. See illustration 15.

REPAIRS

Great care was taken to select the finest materials available to craft your Galco product. It was designed in accordance with the highest engineering standards and hand made using traditional leather craft practices that have become Galco hallmarks over five decades. In the unlikely event a repair is necessary to an unaltered Galco product, simply contact our Customer Service department at 800-874-2526 or [customerservice@galcogunleather.com](mailto:customerservice@galcogunleather.com). We will issue you a Return Authorization (RA) number to print on the outside of your shipping container and provide you with detailed shipping instructions.

TERMS OF SALE

Because we have no control over the use of our products, all Galco products are sold as is and “with all faults”. The entire risk as to the quality and performance of the product is with the buyer. Should the product prove defective following its purchase, the buyer and not the manufacturer, distributor, or retailer assumes the entire risk of all the necessary servicing or repairs. Under no circumstances shall Galco be liable for incidental or consequential damages, such as loss of use of property, commercial loss and loss of earnings or profits. The implied warranties of merchantability and fitness for a particular purpose and all other warranties, expressed or implied, are excluded from this transaction and shall not apply to the product sold. The determination of the fitness or the suitability of any product for a specific use is the responsibility of the buyer. The illustrations shown herein are typical as to the finish and application. Due to uncontrollable variances in color saturation, the actual product may differ slightly from that shown on our web site. Galco reserves the right to make changes in product built and/or sold by them at any time without incurring any obligation to make same or similar changes on products previously manufactured and/or sold by them. All Galco products are made in the U.S.A. and produced according to rigid specifications. Prices and models are subject to change without notice. Some states do not allow the exclusion or limitation of implied warranties or liability for incidental or consequential damages, so the above limitations and exclusions may not apply to you. Galco designs, features, and model names are the exclusive property of Galco International. Any and all persons including, but not limited to, individuals, firms and/or corporations are forbidden from imitating, copying or reproducing them in any way.
