

Internal Setup

How to arrange your gear within

- 1 Choose which opening side is comfortable for drawing the camera (left or right).

- 2 Organize primary gear according to the side chosen above. Store secondary gear in the remaining space, access from the other side.

- 3 For longer lenses or flashes, attach the divider vertically to use the full depth of the bag.

- 4 Keep your everyday accessories in the top compartment.

3N1-33/7

Backpack

For long distance carrying

- 1 Pull the **black** shoulder strap out of the concealment sleeve

- 2 Connect left shoulder strap to left hip buckle. Do the same on the other side.

- 3 Pull lower buckle straps to adjust the shoulder strap length.

- 4 For additional comfort, connect the hip belt.

X-Position

Long distance carrying and Quick Draw option

⇒ To switch to X-position from sling position, do the following:

① Pull unused shoulder strap from concealment sleeve and attach to hip buckle on the opposite side.

② Arrange padded sleeves so they sit comfortably on your chest.

③ To move back to quick draw position, simply release one of the hip buckles.

3N1-33/5

Frontal Quick Draw

(Works on both shoulders)

① Swing the bag to frontal position.

② Release the buckle.

③ Pull flap open.

④ Quick draw your camera.

Zipper fully closes to secure compartment.

Leave tab out to enable quick draw function.

Introducing KATA

KATA designs, develops, and manufactures quality, state-of-the-art protection and carrying solutions. KATA's products are ergonomically designed around the human frame to promise the ultimate balance between protection and light weight. It's not enough that the equipment fits the case, the case must also fit the user!

For the Professional Video Industry KATA has created a completely innovative line of products for field production. For over 10 years we are there to support you wherever your work may take you.

GDC - Global Digital Collection is designed for the Professional Digital Photographer and Videographer. The collection includes carrying solutions specifically designed for delicate digital equipment. The DPS is the latest addition to this collection.

KATA's Ergo-Tech Camera+ collection of consumer bags introduces new organic carrying solutions for your personal day to day gear and your camera. This range of flexible, dynamic bags will adjust to suit you and your equipment as if it were a seamless extension to your body.
