

The DeltaPoint Micro™ is a fully enclosed, low-profile red dot sight designed specifically for concealed carry and personal defense. Until now, there hasn't been a compact red dot sight suited for pistols with smaller frames and lower sight profiles, but the DeltaPoint Micro changes the game. Mounted directly to the rear sight dovetail, the DeltaPoint Micro sits at the same height as factory iron sights and aligns the red dot with the front sight, giving you faster target acquisition and improved accuracy. And with eight levels of illumination, you can easily adjust the brightness of your red dot to match current conditions. If you need a rugged and reliable red dot for a conceal carry pistol but don't want to deal with replacing factory sights or complicated mounting systems, then the DeltaPoint Micro is for you. Current models fit Glock® and Smith & Wesson® M&P® handguns only.

**KEY BENEFITS**

**See more in less light with Leupold's Professional-Grade Red Dot Optical System**

**Compact design is ideal for conceal carry with smaller size handguns** and lower sight profiles

**Mounts quickly and easily** to the factory rear sight dovetail for absolute co-witness, eliminating the need for aftermarket rear iron sights

**Adjust the brightness of your red dot** to match external conditions

**Supports night vision devices\***

**Acts like a ghost ring sight** if battery dies

**Extends battery life** with Motion Sensor Technology (MST™)

**Sleep mode prevents battery drain**, providing 3.5 years of constant runtime on illumination level 4

**Improves target acquisition** with a red dot that aligns to the height of factory front iron sights

**Eliminates distortion and color inconsistency** with crystal-clear lenses

**Provides complete protection from the elements** with a fully enclosed sight housing

**Stands up to the roughest conditions** with Double DiamondCoat scratch resistant lenses

**Disperses recoil energy for unrivaled durability** with ultra-lightweight aluminum construction

**Superior ruggedness** is verified through Leupold's Punisher testing process

**Waterproof, fogproof, and guaranteed to perform for life**

*\*Excludes white phosphor equipment*
