## 4A-i

The 4A-i is a refined version of the world-renowned 4A reticle. The 4A-i is a simplified reticle that provides shooters with a clear field of view and a precise aiming point, free from distractions. Thickened bars along the sides and bottom guide the shooter's eye to the center for fast acquisition when speed matters. An illuminated center dot helps users stay on target when lighting conditions change. The 4A-i is designed for hunters and shooters who know exactly what they want.

Reticle Subtensions*				
	1-6x24	2-12x42	3-18x50	4-24x50
A	2.8MOA	2MOA	1.2MOA	.8MOA
B	44MOA	30MOA	28MOA	20MOA
C	.28MOA	.2MOA	.15MOA	.11MOA
D	.7MOA	.5MOA	.3MOA	.2MOA
E	22MOA	15MOA	14MOA	10MOA

\*All subtensions measured at maximum magnification
