

Rapid Reticle RR 3-G

1-6x24 3-Gun Rifle Scope

The Rapid Reticle™ RR-3-G is specially designed for 3-Gun Competition formats; shooting the popular 5.56 and 7.62 cartridges from zero out to 900-yards without the timely calculating, adding and subtracting windage and elevation clicks.

The patented Rapid Reticle ballistic reticle allows a user to zero the rifle on the center diamond at 100-yards and utilize a series of clearly numbered elevation lines and dots with corresponding wind hold lines which allow the shooter to get more performance out of the 5.56/7.62 rifles than ever before.

The Rapid Reticle RR-3-G will work with the most commonly available 5.56/7.62x51 ammunition, which runs at velocities of approximately 2510-2700 feet per second, for fast and accurate placement.

MRSP \$499.00

Model RR-3-G

Specifications:

- Nitrogen filled one piece 30mm diameter 6061 T6 aluminum tube with Hi-Tech Green anodized finish
- Shock, fog, and water proof multi-coated lenses
- 1-6x24mm with fast focus eyepiece
- First focal plane reticle to allow for accurate shooting throughout power range without manual adjustment
- Fast-focus eyepiece
- Positive $\frac{1}{2}$ MOA windage and elevation clicks on the high-profile target type knobs with quick and easy reset to zero feature.
- Weight (oz.): 17.0
- Length (inch): 9.0
- Eye Relief (inch): 3.50 @ 1x
- Eye Relief (inch): 2.90 @ 6x
- Field of View (feet@100 yds): 90.51 @ 1x 14.66 @ 6x
- Exit Pupil Diameter (mm): 12.3 @ 1x 4.0 @ 6x
- Diopter compensation -2 ~+2D
