01 BATTERY INSTALLATION

The DBH D6 is powered by two 18650 replaceable batteries.

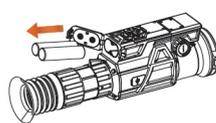

- ▶ Press the lock and open the battery compartment cover.
- ▶ Insert two 18650 batteries into the battery compartment in any direction without worrying about the polarity.
- ▶ After inserting batteries, keep the hook on the clasp, and press the battery compartment cover until it locks in place.

Step 1

Step 2

Step 3

NOTE

The DBH D6 comes with 65mm 18650 batteries by default. To use 70mm batteries, please replace the battery compartment cover. Refer to the user manual for detailed replacement instructions.
