

## LASER SIGHT

Designed to perfectly fuse against the trigger guard of the SIG SAUER® P365 Nitron Micro-Compact Pistol, the proprietary rail mounted LIMA365™ laser sight is ideal for conceal carry situations. With brilliant red and green latest generation Cree 5WM lasers, targets in either the brightest day, or low light situations are easily aquired. Easily accessed elevtion and windage ports are externally placed for nimble changes to your center.
