

SPIKE'S TACTICAL, LLC
LAW ENFORCEMENT SALES FFL/SOT

To Our Valued Customers

RECALL NOTICE: SEPT 12, 2025

We have identified an issue within our small parts department concerning the assembly of certain Delta Ring Assembly kits, which were unintentionally packaged incorrectly. As a result, we are initiating a temporary recall for any kits sold to customers between July 23, 2025, and September 12, 2025. If you are in possession of a Delta Ring Assembly kit obtained during these dates, we kindly request that you contact our warranty department to arrange for an exchange. It is important to note that if you have completed the assembly of your upper, installation issues should not arise, as you may have already corrected the assembly; the incorrect assembly is effectively non-functional. However, for those who have not yet completed their installation, we encourage you to seek an exchange for the appropriate kit.

- SKU = SDR100A (Delta Ring Assembly with Mil-Spec Barrel Nut)
- Weblink: <https://www.spikestactical.com/collections/parts/delta-ring-assembly-w-mil-spec-barrel-nut/>
