

The Trijicon SRO® is specifically designed for pistol use. The wide field of view and clean, crisp dot makes it easy for users to find and track the dot in both target and competitive shooting applications, helping improve shooting accuracy and speed. Every SRO features both manual and automatic LED brightness modes and a robust electronic system designed to maximize battery life. These features make the SRO a great choice in any application.

- 1 CLEARLY SEE THE TARGET**
 - Large, clear lens give the user an unobstructed field of view.
 - Parallax free
- 2 FINDING AND TRACKING THE DOT IS EASY**
 - The large circular field of view helps you find the dot and center it in the lens when shooting.
- 3 EASILY MOUNTS TO POPULAR RED-DOT-READY PISTOLS**
 - The SRO® shares the same foot print as the Trijicon RMR®.
 - Also compatible with most RMR mounts.
 - Does not require a sealing plate.

The Science of Brilliant®

At Trijicon, we are bound by a commitment to industry-leading research, design, and testing to seek innovative aiming solutions that constantly redefine “brilliant.” That’s why Trijicon products are subjected to the below testing methods.

Alaska-to-Africa Tested | Immersion Tested | Solid Zero Tested
Vibration Tested | Drop Tested
