

USO TS-8X 1-8x24mm

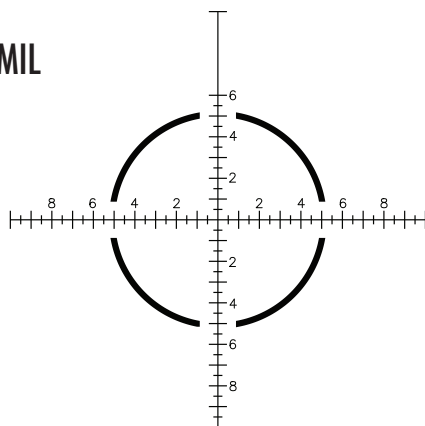

The USO TS-8X, 1-8x24mm rifle scope is one of the most versatile short range variable power optics currently available on the market. The TS-8X features a 30mm tube, 24mm objective, First Focal Plane Illuminated reticle, and capped zeroing elevation and windage knobs. You have the choice of the JNG MIL and the RBR (Rapid Ballistic Reticle). Our reticle selection is built to cater to all shooters. Whether you are a competitor or hunter, you'll find something that fits your needs. The TS-8X upholds the durability, reliability, and optical clarity standards that U.S. Optics has developed over the years, all while maintaining an inexpensive price point.
