

CONTOUR HD

WEARABLE CAMCORDER

The **BIGGEST** HD Video
from the **SMALLEST** Wearable Camcorder
...now in **Full HD**

Wearable Camcorder

ContourHD is the World's First and Smallest wearable video camera. Its light but armored body "slides and locks" ContourHD onto a series of mounts for your goggles, helmet, handle bars, vehicle, or anywhere else you want. Wear HD video and record your adventures hands-free!

One Button Record

To be operated with a pair of gloves on, ContourHD uses a single button to capture hours of HD quality video to an internal microSD memory card. With no wires or tapes, the ContourHD helmet cam makes it easy to capture Full HD video from within the action.

Share Online

ContourHD is a shoot to share experience including our Easy Edit software and your own account on VholdR.com. Connect ContourHD to your computer, clip the best parts, and share your helmet camera adventures online in seconds.

Shoot and Share HD Video

Still everything you need in one box but now in two models.
