

# VORTEX RELAY™

## NETWORK

### WHAT IS THE VORTEX RELAY™ NETWORK?

The Vortex Relay™ network is a closed connectivity platform that ensures an instantaneous and unbreakable link between every long-range device in your kit. It delivers critical range and ballistic data without delay, offering the freedom to customize a precision toolset you can take anywhere. This network is designed to get out of your way and enhance your long-range capability and overall shooting experience.

### WHO IS VORTEX RELAY™ FOR?

Vortex Relay™ is designed to make long-range precision easier by seamlessly integrating your ballistic tools, drawing together their data and communicating information between devices so you don't have to. Vortex Relay™ is for hunters and shooters who demand precision and simplicity from their gear.

### HOW DOES THE VORTEX RELAY™ NETWORK WORK?

Vortex Relay™ is a closed network that recognizes and remembers every Vortex Relay™ enabled device in your long-range toolkit. Set up once, and it reliably connects every device, every time, ensuring seamless, hassle-free integration and focus on precision.

### DO I NEED THE GEOBALLISTICS® APP TO USE A VORTEX RELAY™ PRODUCT?

No. The GeoBallistics® App and every Vortex Relay™ enabled product operate independently, offering shooters of any skill level the flexibility to tailor a precision toolkit that can advance with their skills and needs. While use of the GeoBallistics® App is not required, it can be a great tool for quick edits and inputs and offers additional features.

### DO I NEED A VORTEX RELAY™ PRODUCT TO USE GEOBALLISTICS®?

No. In fact, you can use the free GeoBallistics® App directly from your phone without purchasing any additional products or services.

### DO I NEED MORE THAN ONE PRODUCT TO GET A BALLISTIC SOLUTION?

You don't need multiple products for a ballistic solution; Vortex® products with GeoBallistics® and Vortex Relay™ capability work independently. This system's flexibility allows you to customize and combine products as needed for your specific shooting requirements.

### WHAT IS THE ADVANTAGE OF CONNECTING MORE THAN ONE VORTEX RELAY™ DEVICE?

Integrating the GeoBallistics® solver, weather meter, laser rangefinder, and other devices via the Vortex Relay™ platform maximizes shooting accuracy and efficiency by ensuring real-time data sharing and automatic adjustments, streamlining decision-making when seconds count.

### I'M A NEW SHOOTER. CAN I USE THE VORTEX RELAY™ NETWORK? WHAT ABOUT GEOBALLISTICS®?

Yes, as a new shooter, you can use both the Vortex Relay™ network and GeoBallistics®. They are designed for precision in various shooting scenarios and offer intuitive interfaces that are easy to learn. Plus, Vortex® provides robust customer support with instructional resources and readily available assistance.

### HOW DO I KNOW IF A PRODUCT HAS VORTEX RELAY™ CONNECTIVITY?

Just look for the Vortex Relay™ icon on the box or online.

### HOW DO I KNOW IF A PRODUCT HAS GEOBALLISTICS® AND VORTEX RELAY™ CAPABILITY?

You can identify products with the GeoBallistics® solver and Vortex Relay™ connectivity by looking for the GeoBallistics® and Vortex Relay™ icons on their packaging or online listings.

### DO I NEED CELL PHONE RECEPTION TO BE ABLE TO CONNECT MY VORTEX RELAY™ DEVICES?

No, the devices pair via Bluetooth®. It is important to note that the smart phone's Bluetooth® must be on for the devices to pair.

### CAN I PAIR MY VORTEX RELAY™ DEVICES TO THIRD-PARTY DEVICES?

Vortex Relay™ devices operate on a closed network and cannot be paired directly to third-party devices. However, via the GeoBallistics® App, information from various third-party devices such as Kestrel® and WeatherFlow can be utilized.
