

TRIUMPH™

RED DOT

ELEVATOR PITCH:

Red dot accuracy, speed, and reliability – made simple. The Triumph™ Red Dot keeps you on target whether you're running an AR, shotgun, or rimfire rifle. Quick to mount, easy to trust, and built to keep up, it lets you focus on shooting, not second-guessing your gear.

WHY DID WE MAKE THIS RED DOT?

The Triumph™ Red Dot is an easy-to-use red dot designed for new and recreational shooters who want reliable performance across a range of platforms. Made to simplify setup and eliminate compatibility concerns, it reflects the Triumph™ line's purpose – to provide optics with impressive quality and simple function, allowing new shooters to spend less time setting up and more time shooting.

WHAT IS THE TOP USE FOR THIS PRODUCT?

Recreational Shooting.

WHAT IS THE EXPECTED BATTERY LIFE FOR THIS RED DOT?

Although battery life varies on user habits, the battery run time with the red dot continuously active at setting 5 is 50,000 hours.

WILL THE DOT WORK WITHOUT A BATTERY INSTALLED?

No.

WILL THE MOTION ACTIVATION WORK IF THE UNIT IS MANUALLY TURNED OFF?

No. Turning the unit off manually will disable motion activation.
