Fitting Into Your Cup Holder

CupFone Two View comes with multiple basecups to perfectly fit your cup holder. Ensure only one opening on the bottom is visible at a time.

To separate your base cups, align the separator tool with the hole on the bottom of each cup.

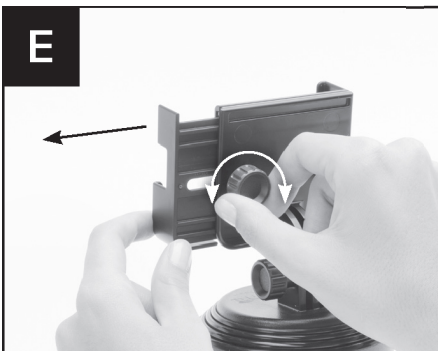

Push down on the tool to pop each cup until you find the right fit.

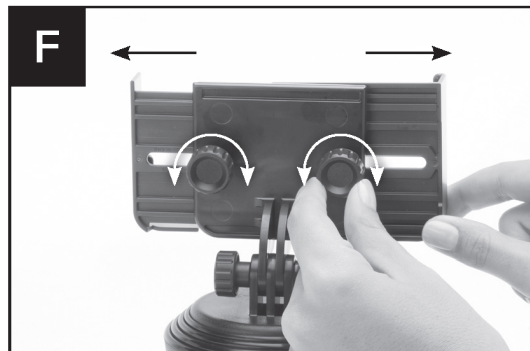

Insert CupFone Two View into your cup holder and rotate to the desired position.

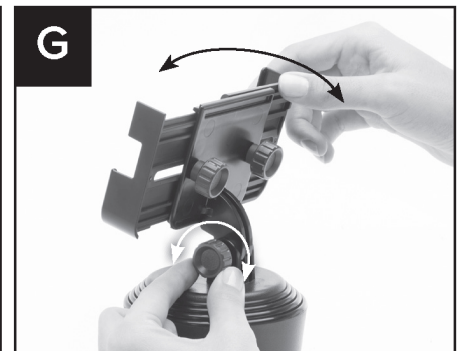

Adjusting the Settings

To view your phone in portrait mode, **loosen knob 1 or knob 2**. Slide the holder until the width fits your upright phone. Tighten the knob.

To view your phone in landscape mode, loosen both **knobs 1 and 2**. Slide the holders until the width fits your horizontal phone. Tighten both knobs.

Adjust the tilt with **knob 3**.
