

DeskFone™

Two View

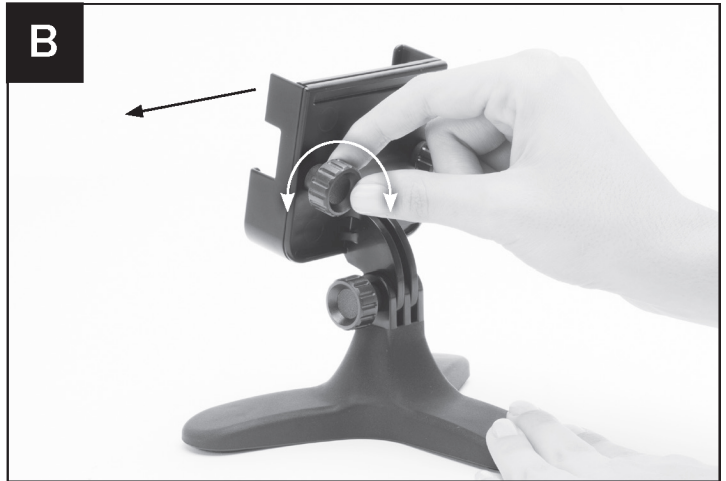

- 1 - Knob 1
- 2 - Knob 2
- 3 - Knob 3

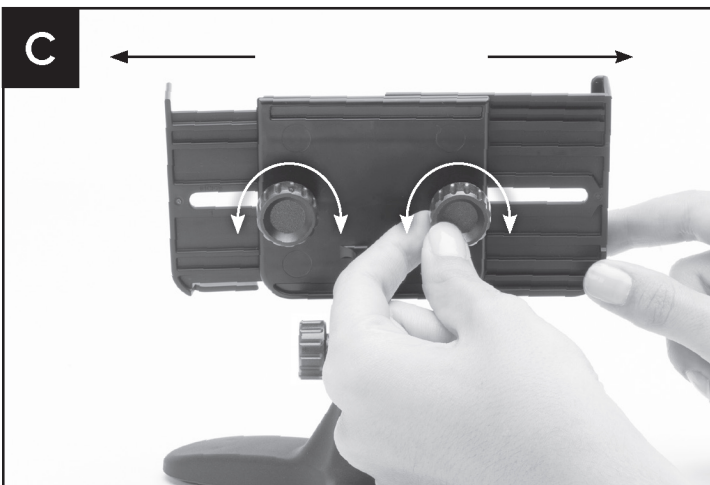

Adjusting the Settings

Remove from package and adjust the phone holder upward by loosening **knob 3**. Once adjusted to an upright position, tighten knob 3.

To view your phone in portrait mode, **loosen knob 1 or knob 2**. Slide the holder until the width fits your upright phone. Tighten the knob.

To view your phone in landscape mode, loosen both **knobs 1 and 2**. Slide the holders until the width fits your horizontal phone. Tighten both knobs.

Adjust the tilt for optimal viewing with **knob 3**.
