

// CONQUEST HD

We make it visible.

DISCOVER THE SMALLEST DETAILS.
EXPERIENCE THE GREATEST MOMENTS.
THIS IS THE MOMENT WE WORK FOR.

Nature never stops and neither does ZEISS. This becomes particularly clear with the CONQUEST HD. A revolution in design, ergonomics and optics. The perfect "Made in Germany" all-rounder combines traditional ZEISS quality with state-of-the-art technology. All this makes the CONQUEST HD binoculars the uncompromising entry into the premium class of ZEISS.

Thanks to the new HD lens system, the CONQUEST HD displays its strengths with optimal image quality and colour fidelity. Such as the exceptionally large field of view for unforgettable experiences or its LotuTec® coating for clear visibility in any weather condition, and easy cleaning. In addition, the ZEISS T* multi-layer coating on the CONQUEST HD with a light transmission of over 90%, allows for observation well into twilight.

Extremely lightweight, it is all the more striking that the ZEISS CONQUEST HD is such a compact and robust companion. It is the culmination of its distinctive design, which combines perfect ergonomics with extremely easy operation. Thanks to the specially shaped grips and large focussing wheel, it is very easy to use and can be focussed precisely even while wearing gloves.

ZEISS CONQUEST® HD.
BOTH OPTICS AND PERFORMANCE
ARE GUARANTEED TO IMPRESS.

// CONQUEST
ZEISS. PIONEER SINCE 1846.

- Razor-sharp detail and natural colour reproduction: HD lens system
- Compact size and a lightweight, modern design: Perfect ergonomics
- Relaxed observation and an impressive overview: Extra-wide field of view
- Clear visibility in any weather and easy cleaning: LotuTec® coating
- Observe the smallest details from up close: Outstanding close focus performance
- Proven quality and a chic design: "Made in Germany"

ZEISS CONQUEST HD. THE MODERN OBSERVATION OPTICS.

8 x 32 and 10 x 32

The new CONQUEST HD 8 x 32 is compact, lightweight and ideal for travel, nature and leisure activities. The 8 x magnification and the wide field of view guarantee particularly comfortable observation. The 10 x 32 provides perfect observation at long range in daylight. It offers a wealth of detail even at long distances. Both are also hugely impressive at close quarters with an optimum value of 1.5 m.

8 x 42 and 10 x 42

As a robust companion for twilight use, designed to offer great versatility, the 8 x 42 with its 8 x magnification gives a stable image in all situations. The 10 x 42, on the other hand, boasts the largest field of view in its class. It provides highly detailed images of the natural world even at long range and enables long periods of effortless observation.

8 x 56, 10 x 56 and 15 x 56 **NEW**

All 56 mm models are ideal companions for viewing under the most challenging light conditions. They are very impressive with the widest fields of view, maximum brightness and brilliant high-contrast images. The 8 x 56 offers the largest eye relief and image stability for relaxed viewing into the deepest twilight, while the 10 x 56 is ideal for seeing details even at long distances. The 15 x 56 is used for extremely long distances. Discover nature's smallest secrets and optimise your visual experience with the 1/4" tripod adapter included in delivery.
