

ANNOUNCED: 2018

ZT 0640

A ERNEST EMERSON design

The 0640 is a new ZT/Ernest Emerson collaboration that provides both practicality and eye-catching style.

The clip-point blade is CPM 20CV high-chromium stainless steel. This powdered metallurgy tool steel has a high volume of vanadium carbides for exceptional wear resistance and a truly long-lasting edge. The highest level of chromium of any high-vanadium steel gives it excellent corrosion resistance as well.

The handle is titanium with a new green carbon fiber overlay on both sides of the handle. This fully manual knife opens one-handed with a thumb disk.
